

Since 2001 we have been supporting our customers in the automotive industry with our know-how in the areas of electrical and electronic development, testing and software development. We have set ourselves to the task of actively shaping the future of innovative projects such as autonomous driving, electric mobility and mobile online services.

Junior (m/f/d) automotive development

📍 Wolfsburg, Germany 📅 asap 🕒 full-time # JS-19022

We are planning to open a new office in Barcelona. We are now looking for dedicated talents to train them in Wolfsburg in the field of automotive development. Afterwards they can build up our office in Barcelona.

Your tasks

- ⬆ You will work in various projects, gaining a deep insight into the automotive industry
- ⬆ In vehicle development, we operate in various areas such as software and hardware development, requirement and project management
- ⬆ As Trainee you are involved in the entire product lifecycle from conception through implementation to testing and the subsequent evaluation of the test results
- ⬆ After successful completion of the trainee program, you can either stay with us in Wolfsburg or you will help to establish our new office in Barcelona

Your profile

- ⬆ University degree in engineering, computer science or economics; or multiple years of professional experience in the automotive industry
- ⬆ Deep technical understanding and very good IT skills
- ⬆ Fluent in Spanish and English on contractual level, German Beginner Level desirable
- ⬆ Willingness to learn German
- ⬆ Teamwork, flexibility and organizational talent complete your profile

Our benefits

- ⬆ Indefinite employment with career perspective and variety
- ⬆ German language course
- ⬆ Assistance in finding accommodation / „full care“-contract
- ⬆ Continuous education

Your application

We are looking forward to your CV including salary expectations, reference number and possible start date at karriere@jservice.de.
