

Since 2001 we support important projects in software development, electric/electronic engineering and project management. We map business processes based on customer requirements in existing systems or implement new solutions. Our clients come from the automotive and the finance industry. In the meantime, we have more than 160 employees at 6 locations in Germany.

🕒 fulltime

Who are we looking for?

If you are good in **engineering, software development, accounting or you have good office organization or human resources skills** – we're looking for YOU!

We want energetic support for our project teams. This can be in hardware or software development, testing, in project management or in the wide field of supportive office tasks like HR and organization. Anyone who speaks good English, with a degree in economics, informatics or engineering and wants to join our team is welcome!

We would like to train you at our headquarter in Wolfsburg, Leipzig or Berlin in Germany. You will get to know the tasks and the way of working in the automotive or financial development. We are happy if you stay with us in Germany. But there is also the possibility that you will move to one of our future offices in Barcelona or Istanbul.

What we offer

- indefinite employment, industry standard salary, weekly German language course
- if necessary furnished apartment for transition period included
- 27 days annual leave increasing by 1 day each year to a maximum of 30 days
- 40 hours a week with flexible working hours with attendance from 9:00 am to 3:00 pm
- Overtime is compensated in spare time
- training on the job with mentor, flat hierarchies and an informal working atmosphere
- various leisure events such as team events, summer party, game evenings and much more
- contribution to gym fees and health/self-care activities
